

REACH AUDITS

TNO triskelion bv

WHAT'S IN IT FOR YOU?

Our primary goal is to prepare you for national REACH inspections by reviewing the organisation and implementation of your REACH compliance programme and suggesting solutions.

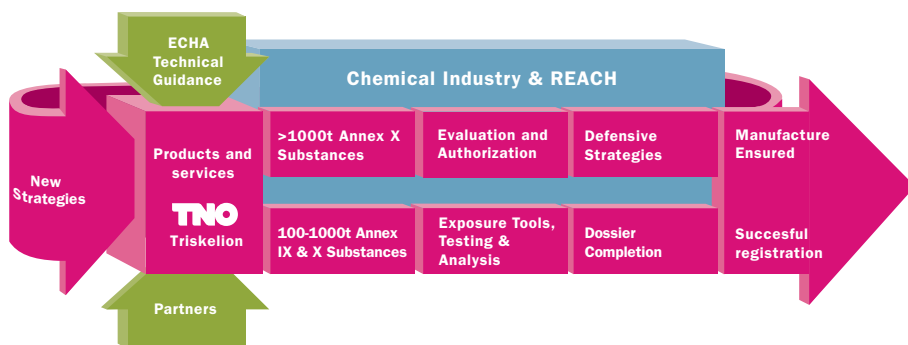

- Thorough check of your REACH compliance programme, implemented tools and solutions for validity and robustness.
- Detailed Q&A list combined with our recommendations.
- Improved and more efficient REACH compliance programme.
- Increased awareness and sense of urgency at your sites and in your departments.
- Assistance towards full compliance through additional audit(s); review of the implementation of the recommended improvements of the REACH compliance.

YOUR SITUATION

Several competent authorities have announced early REACH audits of certain EU companies with a focus on the following four elements:

1. List of substances/products and their REACH obligations.
2. Classification and labelling of these substances and products.
3. Preparation of (extended) Safety Data Sheets ((e)SDSs).
4. Downstream user communication and internal documentation.

The eSDS process (from EU/non-EU supplier receipt to in-house implementation and issue to customers) and supply chain communication are key. The ability of current change-management processes to deal with growing streams of new data is critical

REACH AND TNO TRISKELION: SUCCESSFUL REGISTRATION 'WITHIN REACH'

The aim of REACH is to describe the safe-use of chemicals throughout the product chain. All High Production Volume Chemicals and priority substances must be registered by 2010 or 2013. TNO Triskelion can assist your company in achieving this with our proven expertise in the fields of risk assessment, registration and testing. With TNO Triskelion, your technical dossiers, exposure scenarios and Chemical Safety Reports are safe in our hands.

The added value of TNO Triskelion's REACH services is based on decades of experience with registration and safety studies for the Chemicals Industry. TNO Triskelion is actively involved in the rgw ongoing work of developing technical guidance for REACH and has broad contacts with ECHA and the EU Member State Competent Authorities.

to successful REACH compliance, which is crucial for your licence to operate.

Being well prepared can make your contacts with the authorities more confident and meaningful, assisting in a smooth and successful inspection.

OUR SOLUTIONS

An audit may include a review of the following aspects:

- REACH obligations and the expectations of inspectors.
- Substance inventory.
- Efficiency of current purchasing processes (including customs).
- The process for classification and labelling of substances/products.
- The REACH obligations on the use of hazardous substances.
- The management of (extended) SDSs.
- The practical implications of REACH in the company/plant.
- Downstream user / supply chain communication.
- Internal documentation / archiving.
- Internal communication and training of personnel regarding REACH.
- Current IT-tools to facilitate the above processes.

WHY TNO TRISKELION

- Strong REACH team: regulatory scientists highly experienced in chemical industry, with EU Competent Authorities and contract research.
- Experience with more than 200 REACH projects for major chemical industry clients: consortium representation, lead dossier generation, company dossiers.
- Working in the interest of our clients, anticipating the wishes of authorities.
